1. Introduction

The SAP Academic Partnerships (AP) Faculty – Industry Meet-up was conducted on the 11th and 12th March 2026 at SAP Labs, Bengaluru. The event aimed to strengthen collaboration between academia and industry by providing insights into SAP technologies, industry practices, and academic integration strategies.

The programme included industry expert talks, institutional presentations, networking sessions, and hands-on workshops focusing on SAP tools and platforms.

2. Day 1: Faculty – Industry Meet-up (11th March 2026)

2.1 Inaugural Session

The event commenced with a registration followed by a welcome address by:

- Rahul Sachdev, Director, SAP Academic Partnerships, India
- Jayanth Bagare, SAP Institute for Product and Engineering

They emphasised the importance of academia-industry collaboration in shaping future-ready graduates.

2.2 Industry Partner Sessions

Industry experts shared their experiences and partnerships with SAP:

- Tech Mahindra – Journey with SAP
- Deloitte – SAP implementation insights
- LTM (Larsen and Toubro Infotech) – SAP business transformation strategies

These sessions provided valuable exposure to real-world SAP applications and career opportunities.

2.3 Academic Institution Presentations

Selected institutions shared their SAP journey:

- Victoria University, Melbourne (Virtual Session) – Global perspective on SAP integration
- New Horizon College of Engineering, Bengaluru – Implementation of SAP UA and LHSE
- Chalapathi Institute of Engineering and Technology – SAP UA and Business Builders initiative

These presentations highlighted successful case studies of SAP adoption in academia.

2.4 Networking and Feedback

- Lunch and networking session enabled interaction among faculty and industry professionals
- Feedback was collected using Mentimeter
- Vote of thanks concluded the formal session

2.5 SAP Business Builders Workshop

A hands-on workshop was conducted by:

- Vipin Vijaykumar, Senior Developer, SAP Labs

The session focused on:

- Practical exposure to SAP tools
- Application development concepts
- Industry-relevant skill enhancement

3. Day 2: Train-the-Trainer Workshop (12th March 2026)

3.1 Opening Session

The second day began with registration and a welcome session by:

- Rahul Sachdev
- Namrata Sarma

The focus was on empowering faculty members with SAP technical knowledge.

3.2 SAP Business Technology Platform (BTP) Workshop

Conducted by:

- Vipin Vijaykumar
- Navin Krishnan Manohar

Key learning outcomes:

- Overview of SAP BTP
- Cloud-based application development
- Integration and Data Management

3.3 Advanced Workshop Sessions

- Continuation of BTP workshop
- Hands-on exercises and implementation scenarios

3.4 SAP Build Workshop

This session covered:

- Low-code/no-code application development
- SAP Build tools and practical usage
- Real-time project demonstrations

3.5 Valedictory Session

The event concluded with:

- Summary of workshop learnings
- Vote of thanks by SAP Academic Partnerships Team

4. Key Outcomes of the Programme

- Enhanced understanding of SAP ecosystem and technologies
- Strengthened academia-industry collaboration
- Exposure to real-world SAP applications
- Faculty training on SAP BTP and SAP Build tools
- Networking opportunities with industry leaders and peer institutions

5. Conclusion

The SAP Academic Partnerships Faculty – Industry Meet-up was highly beneficial in bridging the gap between academic curriculum and industry requirements. The sessions and workshops provided practical knowledge, enabling faculty members to integrate SAP technologies into teaching and research effectively. The programme successfully contributed to building a future-ready academic ecosystem aligned with industry needs.

6. Glimpses of the Faculty–Industry Meet-up and Workshop
