

Report on SAP Business Builder Workshop

Date and Time: 28th April 2026 , 11:00 AM-1:00 PM

Topic: SAP Business Builder Workshop

Resource Person: Mr. Vijay Kumar Vipin
Senior Developer
SAP Labs

Convenor: Dr. D V Sreekanth, HoD-ME
Mr. Pradeep Kote, Senior Director - CDC
Dr. Sivakumar Raju, Director-CDC
Dr. R J Anandhi, Dean Academics
Dr. Manjunatha, Principal, NHCE

Faculty Coordinator: Prof. Mohan kumar G R, Assistant Professor-ME

Audience: SAP Students

Venue: SAP COE, NHCE

Organized by: Department of Mechanical Engineering Associated with
Career Development Centre

The poster features the New Horizon College of Engineering logo at the top, which includes a 25th anniversary emblem. Below the logo, the word "Workshop" is written in white on an orange banner. The main title "SAP Business Builder Workshop" is in large orange letters. Event details are listed with icons: a calendar for "28th April 2026", a clock for "11:00 AM to 01:00 PM", a location pin for "SAP Lab", and a group of people for "SAP Students". A circular portrait of Mr. Vijaykumar Vipin is shown next to his name and title. At the bottom, a list of faculty coordinators and organizers is provided, including Mr. Mohan Kumar G R, Dr. D V Sreekanth, Dr. Sivakumar Raju, Dr. R J Anandhi, Mr. Pradeep Kote, and Dr. Manjunatha. The footer states the workshop is organized by the Department of Mechanical Engineering | Career Development Centre.

1. About SAP Business Builders

Business Builders is a free, cloud-based platform that transforms data literacy and business storytelling into an interactive learning experience. Students explore real-world scenarios, use SAP Analytics Cloud to analyse data, and compete on leaderboards—earning instant feedback and celebrating success.

Each game challenges students to visualise and interpret real business data, answer scenario-specific questions, and climb the leaderboard through accurate, timely analysis. The platform covers scenarios ranging from foundational business skills to advanced decision-making, making it suitable for analytics, strategy, finance, IT, and sustainability domains.

2. Workshop Overview

The workshop focused on hands-on training using SAP Business Builder's 'The Agent Game' platform. Students were divided into teams and worked on various business scenarios where they analysed and visualised real-time data to make strategic decisions.

The sessions were structured with step-by-step guidance, starting from understanding the SAP Business Builder interface to performing analytics using SAP Analytics Cloud. Students actively participated and demonstrated enthusiasm in interpreting business data effectively.

3. Objectives of the Workshop

- To introduce students to SAP Business Builder and its interactive learning environment.
- To develop students' understanding of data literacy and business concepts.
- To provide hands-on experience in analysing and visualising business data using SAP Analytics Cloud.
- To enhance decision-making and analytical skills through gamified learning.

4. Learning Outcomes

- Understand the fundamentals of SAP Business Builder and its educational benefits.
- Apply analytical and critical thinking skills to interpret business data.
- Visualise data trends using SAP Analytics Cloud and make informed business

decisions.

- Appreciate the role of gamification in developing business and analytical skills.

5. Activities Conducted

- Demonstration of SAP Business Builder platform and interface walkthrough.
- Hands-on session using ‘The Agent Game’ scenario.
- Data visualisation and interpretation exercises using SAP Analytics Cloud.
- Team-based problem-solving tasks and leaderboard competitions.
- Feedback and discussion session on analytical approaches and outcomes.

6. Feedback and Observations

The feedback from students was overwhelmingly positive. Participants appreciated the interactive nature of the workshop and the opportunity to work with real-world data. The gamified format helped them understand analytical concepts more effectively and increased their confidence in data-driven decision-making. The activity promoted teamwork, innovation, and analytical reasoning.

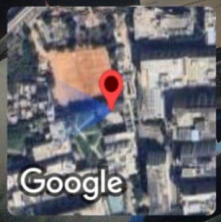

7. Conclusion

The workshop on SAP Business Builder – The Agent Game Platform was a highly successful initiative that enhanced students’ analytical and business acumen. It provided a valuable platform for experiential learning, bridging the gap between theoretical knowledge and practical applications.

Students gained hands-on experience with SAP Analytics Cloud and developed essential skills in data visualisation, decision-making, and strategy formulation. Such workshops significantly contribute to preparing students for data-driven roles in industry and academia.

8. A Glimpse of the Workshop
